- ◆ LCP ◆
- ◆ Shoo Fly ◆
- ◆ Books@Press ◆
- ◆ Chunky Tunes ◆
- ◆ Dance in a Bag ◆

WALKER BOOKS

All of our audio resources are digital and here's why:

- No more lost or broken CDs or cassette tapes. All of the audio tracks are digital and stored on your computer.
- Your children can listen to different tracks at the same time using multiple StoryPhones players.
- You can create play lists and use only the tracks you need for a planned activity.
- No need for multiple copies of a CD. Digital audio allows you to play the same track in as many different locations as you like at the same time.

Buying audio tracks from BookShelf is so convenient because:

- You can buy credit for your account in the store and then avoid the use of credit cards or invoices for small purchases.
- Each track is purchased with a site license for your whole establishment.
- You will have a permanent link for your purchases on the store, should you ever need to download it again.
- You will have instant access to an ever growing range of audio titles and resources.
