

Video 16: Building up your MP3 library

- You can build up your library of MP3 tracks in various ways.
- You can buy from the StoryPhones BookShelf on-line store. For more information, please see the video about the online store.
- You can import MP3 tracks from website downloads. You can find a list of websites offering MP3 downloads from the StoryPhones website.
- You can also convert from tapes and CDs if you own the copyright. You can also grow your library by including your own recordings as explained in the video about recording.
- You can play any MP3 track on StoryPhones players as long as it doesn't exceed a 256k bit rate. This gives you the versatility to choose from the wonderful range of MP3 tracks that are available.
